### Procedures:

X-ray of affected extremity

Closed reduction

Splint/cast application

**Consulting Physicians:** Dr. Stark, MD

**Discharge Authenticated by:** Dr. Scott, MD

\*AUTHENTICATED BY ATTENDING\*

## **How To Monitor, Secure, And Destroy Your Medications**

Preventing prescription drug abuse starts in your home. According to the U.S. Drug Enforcement Administration, more people die from over-the-counter and prescription drug abuse than from cocaine, heroin, and ecstasy combined. Safeguard your family by following these steps.

### **MONITOR**

Take inventory. Count your medications from the pharmacist. Count them as you use them. Take note of missing and quickly used medications.

### **SECURE**

Lock Medications and reduce access. Don't leave them in a bathroom. Keep them away from children and youth.

### **DESTROY**

Never dispose of medications in a sink or toilet. Dissolve unused or expired medications in a baggie with kitty litter.

### **How To Properly Destroy Your Expired And Unwanted Medications At Home**

#### **What You Will Need:**

- Expired and unwanted medications
- Zip baggie
- Hot water (over 110°F)
- Kitty litter

#### **Steps To Follow:**

- 1) Pour unwanted/expired medications out of their original containers into a zip baggie.
- 2) Pour hot water (over 110°F - about as hot as a cup of coffee) into the baggie.
- 3) Insert kitty litter into the baggie. Seal baggie. Place in trash bin.

Shred prescription labels or use a black marker to cross out label information.

## **How to Address Your Child's Discomfort and/or Pain While at Home**

Your healthcare provider will tell you if your child will need any medication for discomfort and/or pain while at home.

There are many other ways you can help keep your child comfortable without using medications or with using less medications.

**If okay with your healthcare provider, this can include:**

- Use of cool and/or warm packs
- Help your child change position in bed or chair
- Encourage your child to be up in a chair or walking
- Massage your child's feet, hands, and back with lotion
- Distraction; such as art, crafts, music, TV/videos

## **CHOC Link and COVID-19 Resources**

**CHOC Link** is an online tool to manage your child's medical records and communicate with your providers and clinics. If interested in getting access, please provide a valid email address to your CHOC provider office or to the Admissions Department, and we'll send you an invitation to create your account. To learn more, go to [www.choc.org/choclink](http://www.choc.org/choclink).

Please visit 'Coronavirus (COVID-19): A Resource for Parents' at [choc.org/coronavirus](http://choc.org/coronavirus) for frequently asked questions and up to date information from Centers for Disease Control and Prevention, Orange County Health Care Agency, California Department of Health, and CHOC Children's including visitor information.

If you have questions about your child's health and COVID-19, call our 24/7 Nurse line at **1-844-GET-CHOC**.
